

JAGUAR FLIGHT

223 Entry

There are not very many entries which have had the dubious distinction of being ejected from two of the three original Apprentice Wings, and we are starting to wonder whether we will graduate before the last one folds up. Jaguar Flight is at least in a good state of repair, particularly the study room. This is just as well, because if the entry gets any smaller we may be holding the Graduation Parade in there.

Sportswise we have been fairly active. Messrs. Sawyer and P. J. Jones have been in evidence on their long-range canoe, Lowe has covered many arduous miles on his flat feet and Stelmach put in an excellent performance in the boxing ring. There is no truth in the rumour that he lost because he fell off his platform heels. We were a trifle upset to be beaten in the Inter-Flight Darts match, and attribute this to the fact that, as most of the team are under 18, it was impossible to practise in an authentic beery atmosphere.

We should all like to thank Sgt. Thomas and Cpl. Young for their efforts, and wish them well wherever they may go. Also, welcome to Sgt. Wiseman who joins Cpl. Hogan in attempting to control us between now and June 21st.
